

CL500 Marine Grade

The CL500 Marine Grade range of locks completes the Codelocks Mechanical series.

It's the same reliable, heavy duty lock, but specially enhanced to withstand harsh outdoor environments and coastal applications. The CL510 and CL515 mortice latch locks allow users flexibility on how to manage entry - by code or code free access.

Salt spray tested
1000 hours*

Over 2000 non-sequential
code combinations

Suitable for high traffic
environments
